BA (Hons) Games Design, First
2013 – 2016

Exeter College
Information Technology
2011 – 2013

PROFILE

Senior technical designer with 15+ years in games, from hobbyist modding to developing with TT Games, Ubisoft, Remedy, and Rockstar. First-class Games Design degree, strong in Unreal and Unity, and focused on fast prototyping and designing robust gameplay systems.

EXPERIENCE

- **Senior Technical Designer · TT Games, Knutsford** Oct 2024 – Present
  Designing, prototyping and scripting gameplay activities for the next LEGO open-world adventure.
- **Technical Designer · Splash Damage, Bromley** Sep 2022 – Oct 2024
  Open-world features and vehicle gameplay for Transformers Reactivate, plus implementation workflows.
- **Senior Designer (Technical) · Red Kite Games, Leeds** Sep 2021 – Sep 2022
  Pre-production on FBC: Firebreak, adapting Control into a multiplayer FPS.
- **Technical Level Designer · Ubisoft, Düsseldorf** Aug 2020 – Sep 2021
  AAA VR on Assassin's Creed Nexus: technical support, mechanic prototypes and mission script blocks.
- **Designer (Technical) · Team17, Wakefield** Jul 2017 – Aug 2020
  In-house and external projects across engines and genres; prototyping and Team17's design point of contact.
- **Games Tester · Rockstar, Lincoln** Apr – Jul 2017
  Quality testing in the RAGE engine on PS4, Xbox One and PC.

SELECTED PROJECTS

- **LEGO Batman: Legacy of the Dark Knight** 2026
  Owned multiple open-world activities from design to implementation, and built their workflows.
- **Transformers Reactivate** Unreal Engine 5
  Wrote Blueprint standards and drove adoption; owned Open Worlds documentation, designs and systems.
- **FBC: Firebreak** Northlight, 2025
  Prototyped core gameplay and missions for Control's multiplayer spin-off, scripting in Lua.
- **Assassin's Creed Nexus VR** Unity, 2023
  Built the gameplay blocks for missions, carrying the franchise into VR.
- **Worms Rumble** Unreal Engine, 2020
  Designed the original prototype and all UI, then returned for the live-service release.
- **Advanced First Person Character** Unreal Marketplace
  Popular first-person base tool that makes common systems usable for non-technical designers.
- **Luck Screen** Android, 2017
  Solo-developed puzzle game released on Google Play.
